Compusoft Advisors marks 28 years with global expansion and AI-first strategy

The company is investing in certified AI talent, regional delivery hubs, and partner ecosystems to deliver high-impact solutions aligned beyond borders.

[Compusoft Advisors](#) is celebrating its 28th anniversary solutions at scale. The company has and is accelerating its global expansion, focusing on delivering enterprise-grade AI, cloud, and sustainability established a strong presence in India, Singapore, and Australia and is preparing for the next phase of growth in North America, the Middle East, and Europe.

Fueling global expansion

The company is investing in certified AI talent, regional delivery hubs, and partner ecosystems to deliver high-impact solutions aligned beyond borders. Compusoft's AI and Copilot Enablement strategy has made it a leader in AI-led transformation, building AI agents, virtual assistants, and domain-specific bots with Microsoft Copilot Studio. As a Microsoft-certified ISV, Compusoft is fast-tracking its product portfolio, including Space Management and BuildEx CRM developed in the Microsoft Dynamics platform.

AI-driven transformation

Devesh Aggarwal, Director, Compusoft Advisors stated that, "By strengthening our global delivery capabilities and investing in AI, cloud, and sustainability, we are not just growing our footprint—we are reinforcing our role as a transformation partner that delivers real-world outcomes. At Compusoft Advisors, we don't just implement technology; we guide businesses through it as their trusted AI Saarthi."

Compusoft Advisors has changed its name from Compusoft – World of Software to Compusoft Advisors – Your Trusted AI Saarthi. The new identity reflects the company's shift towards advisory-led, AI-powered transformation, with agile delivery models ensuring continuous value and alignment with dynamic enterprise needs.
